Ordering Provider: Provider NPI:

Referring Practice Name: Phone: Fax:

Practice Address: City: State: Zip Code:

NURSING

☑ Provide nursing care per Baptist Nursing Procedures, including reaction management and post-procedure observation

☑ Provide supporting clinical documentation including:

- o Positive amyloid beta pathology testing (Amyloid Beta PET Scan or biomarker testing)
- o Clinical documentation including a neurologic evaluation supporting accurate diagnosis and eligibility of mild cognitive impairment or mild dementia. Ex: Mini Mental Status Exam (MMSE)
- o ARIA MRI Classification Criteria: If ≥ 5 new incident microhemorrhages or > 2 new focal areas of superficial siderosis (indicating moderate radiographic severity for ARIA-H) are observed, treatment will not be initiated until MRI demonstrates radiographic stabilization and symptoms, if present, resolve. If any of the following are noted: FLAIR hyperintensity >5 cm in a single greatest dimension, more than 1 site of involvement, gyral swelling or sulcal effacement (indicating moderate radiographic severity for ARIA-E), treatment must be suspended until MRI demonstrates radiographic resolution and symptoms, if present, resolve

☐ **I, the prescribing provider, am responsible for ordering and reviewing all MRIs of the brain for this patient. By checking this box, I acknowledge that I have obtained and reviewed a baseline (within 1 year) MRI and communicated the results to the patient or his/her legal guardian. Baptist Memorial Healthcare is safe to proceed with the patient's lecanemab (Leqembi) infusion**

REQUIRED DOCUMENTATION (new referrals only)

Referring providers must register patients with Medicare and Medicare Advantage in the CMS registry and provide proof of registration prior: https://qualitynet.cms.gov/alzheimers-ced-registry/submission

Attach proof of CMS Registry Confirmation or provide below:

Issue Number: ALZH-_____

Date of Submission: _____

THERAPY ADMINISTRATION

☑ **Lecanemab** (Leqembi) IV 7th-13th INFUSION

NOTE: Baptist will pursue an authorization per the dosing schedule outlined in the manufacturer's PI. However, a new order and subsequent MRIs of the brain must be completed and reviewed prior to the 3rd, 5th, 7th and 14th infusions

- Dose: 10 mg/kg
- Frequency: every 2 weeks for 7 doses
- Rate: over 60 minutes

SPECIAL INSTRUCTIONS

In addition to this form, please also provide the following:

- Most recent providers note, with appropriate ICD-10 diagnosis code
- Most recent labs
- Supporting clinical documentation (new referrals), updated MRI
